

Programs policy

Policy Statement

We are committed to effectively delivering inclusive programs, activities, and services that create new opportunities, and support lifelong learning for the Corner Inlet community. We are committed to continually innovate to improve the quality and relevance of our programs.

Why we have this policy

We have this policy to make sure our Learn Local and other programs, activities and services are run effectively, to a high standard and meet identified Corner Inlet needs and interests.

The policy identifies the supporting documents the Committee of Management requires to be developed, implemented, regularly reviewed and reported on, so that our programs are delivered in accordance with our values, mission and vision, strategic plans and the requirements of a registered Learn Local provider.
