

Manna Gum Community House

Sustainability policy

Policy Statement

We are committed to staying at the forefront of sustainability solutions in everything we do, and being a role model and leader in the Corner Inlet community.

Why we have this policy

We have this policy because we believe that climate change is a critical issue and that we need to lead by example when delivering our services, activities, and operations.

The policy identifies the supporting documents the Committee of Management requires to be developed, implemented, regularly reviewed and reported on, so that we implement and advocate for high standard sustainability practices.
